Mission | **THE HUNT VOYAGE**

*[We want to tell your story
and have you represent
the Gunwerks brand while
doing what you love to do –
hunting all over the world.]*

Gunwerks is excited to announce a new adventure hunting film and TV series that captures the journey of Gunwerks customers as they navigate the globe in search of the most exclusive trophy animals on the planet.

While hunting strategy and long range precision will always be at the core of the story, this film series is about much more than just a hunt. Viewers will follow along as hunters face the physical struggles of extreme landscapes, the challenges of navigating international logistics, and the unique experiences and cultural barriers attached to hunts of this magnitude.

Each episode is anchored by a successful Gunwerks customer. Their personal story, hunting history, and connection to Gunwerks will be woven into the series itself. The result is a first class international hunting series with high end cinematics, compelling storytelling, and once in a lifetime trophy animals.
